

BTG Guest Call Ultra System

Transform your customers waiting experience with Guest Call Ultra

With the BTG Guest Call Ultra Voice Pager you will easily manage your customer flow and create a quieter more inviting atmosphere.

BTG Ultra systems will increase profit margins by reducing staffing costs and provide the best possible customer service.

BTG Ultra Pagers feature options for flash, bleep, vibrate and our unique voice announcement option which is fully customisable with your own voice announcement option.

The BTG Ultra system is ideal for food court restaurant operations where customers are called back to collect food or restaurant operations where diners are waiting for table availability.

Retail outlets where customers have to wait for any length of time can also benefit from Guest Call Ultra, offer your customers a Guest Call Ultra pager and they are free to browse the store whilst they wait for service.

If you run an operation where customers have to wait or queue Guest Call Ultra is the answer.
