

Quiet Call Ultra

Quiet Call Ultra Patient Call System

Transform patients waiting experience with Quiet Call Ultra

Free patients from the confines of the waiting room, patients can relax in the facilities cafeteria or step outside for some fresh air safe in the knowledge that they will be called the moment they are required for their appointment. No more congested waiting areas, relieve the stress of waiting for patients and free staff time to be more productive.

Offer patients the best healthcare possible with a Quiet Call Ultra patient paging system. Quiet Call Ultra transforms the way you communicate with your patients, no more congested waiting areas,.

Quiet Call Ultra allows patients to be located at the press of a button no matter where they are in your facility. Quiet Call Ultra is the ideal solution for on site patient communications and can be customised offering multiple department & individual site requirements.

Quiet Call Ultra offers discrete communication with patient privacy guaranteed, no more calling patient names or searching the facility to find patients.

Quiet Call Ultra has options for stand alone or site wide networked systems with network connected call points.
