

## Reception & Trade Counter Call Button

### Alert Staff at The Press of a Button

### Call Button & Slim Pager

The reception & trade counter call button paging system will ensure staff are alerted to unmanned hotel receptions or trade counters at the press of a button.

Call Buttons allows you to efficiently alert staff wherever they are located in your building at the press of a button.

When the call button is pressed the staff member is instantly notified with the display on their slim pager indicating which button has called for service.

Slim pagers are provided with a single charging dock. And offer up to five days use from a single charge.

The call button is supplied with a wall or counter to back box for ease of installation.

The system is completely wireless with long life lithium batteries in both the call button & slim pager.

### System Features
